

## Going to The Old Globe

I am going to see a musical at The Old Globe. A musical is a live play with singing, dancing and music played live by musicians.

Here are some things I will see when I go to see the show:

Crossing the street to the theatre.

The plaza.

The entrance to the theatre.

The theatre lobby.

The seats and the stage.

Musicians will play before the show. Then someone will welcome us with a speech from the stage.

The lights change color and get brighter or darker during different parts of the show.

The Once-ler starts as a puppet in a tall tower and then comes onstage as a man. This is what he looks like in the tower.

The Once-ler travels to a beautiful valley. He meets many animal friends, including The Lorax

Some parts of the show are sad. Here is a swan dancing under a smoggy sky.

There is also a song called “Super Axe Hacker” with a big motorcycle.

There will be an intermission. This is a break in the middle of the show. When the show starts again, the set will look like this.

The Lorax will travel to a big factory.

In the end, we get to clap while the actors take a bow.
